

MUNICIPAL ELECTRIC SYSTEMS OF OKLAHOMA

Powering Strong Communities

MESO and APPA

Present

Cyber Security Training

Identity and Access Management

The most vulnerable part of any cybersecurity program are the users. This one-day session focuses on key considerations in developing conscientious users who take cybersecurity seriously.

September 25, 2018

**Edmond Electric
2004 Old Timbers Drive
Edmond, Oklahoma**

MESO

308 NE 27th Street
Oklahoma City, OK 73105
405-528-7564
45-524-5095 (fax)
www.meso.org

Who should attend: anyone who touches or fixes a computer with access to the internet.

Topics:

- Review of user-related risks and mitigation strategies
- Acquire key identity and access-management concepts
- Realize technical deployments that help minimize the impact of user error or malicious acts
- Examine the benefits and pitfalls of single sign-on systems
- Discuss best practices for user-management processes

This training is based upon work funded through a cooperative agreement between the American Public Power Association and the Department of Energy.

Cost: \$50 per person - includes lunch and class material

Instructor: Kim Grosskurth, Senior Consultant, AESI, Inc.
About AESI - AESI delivers professional engineering, technical and management solutions to electric utilities and government agencies across North America, helping them maintain reliable operations, meet regulatory requirements, and manage with efficiencies.

Class Schedule: 8:30 a.m. Registration; 9 a.m. Session Begins

Location: Edmond Electric, 2004 Old Timbers Drive, Edmond, Oklahoma

Questions: For more information about the training session, contact Tom Rider by email at tom@meso.org

Registration deadline is September 18, 2018

Class size is limited - register today!
